Economic Science,  
Mar. 2012 - Nov.2014

# THOMAS PRAYON

## Web Developer

### ABOUT ME

Certified web developer with a diverse background spanning customer service, event organization, design, and business administration. With extensive experience in customer service and business administration, including 3+ years of Excel proficiency, excels in generating detailed reports and leading teams to ensure exceptional outcomes. Driven by a passion for innovation, seamlessly blends frontend and backend expertise to develop responsive, visually captivating interfaces. Proficient in JavaScript, particularly in React and Node.js.

### WEB DEVELOPMENT PROJECTS

#### Meet App

##### Student project, Career Foundry, November - December 2023

- Develop a Progressive Web Application using React, employment Test Driven Development (TDD) and Behaviour Driven Development (BDD) methodologies. Integrated Google Calendar API for enhanced functionality.
- Engineered serverless functions with AWS Lambda for user authentication and authorization processes.
- Implemented testing strategies, including unit and integration tests using Jest, and end-to-end testing with Puppeteer. Achieved 100% test coverage, empowering users to filter events by city, visualizing data through charts, and utilize offline functionality.

#### Cinematix

##### Student project, Career Foundry, September - October 2023

- Created a single-page, responsive front-end application using React following the MVC design pattern.
- Built a REST API with Node.js with Express.
- Created a non-relational database using MongoDB using Moongoose.
- Tested API endpoints with Postman.
- Created a well written documentation and deployed the API.
- Crafted a responsive interface for the web application, ensuring functionality across various devices. Enabling users to register, login and access personalized movies selection and details. Plus, facilitated updates for enhanced user experience.

### WORKING EXPERIENCE

#### Tattoo Home Studio - Handpoke

##### Dec. 2016 - Present | Buenos Aires, ARG

- Designing and translated concepts from paper to screen and skin, leveraging Photoshop for digital rendering and Procreate for precise digital sketches. Skillfully tattooed over 150 customers, fostering a loyal clientele base with many returning for additional work.

#### Rider / RiderOps / Ops Associate

##### Mar. 2022 - Aug.2023 | Berlin, DE

- Arranged the efficient allocation of workload for riders, managing over 200 orders per shift in a fast-paced environment.
- Compiled comprehensive bike reports and executed repairs for approximately 30 bikes, ensuring optimal functionality and safety.
- Maintained shelf inventory, consistently restocking with precision and optimizing organization to boost overall productivity.

#### Waiter / Cook / Organizer - Avocado Catering

##### Mar. 2016 - Nov.2018 | Buenos Aires. ARG

- Developed proficiency in diverse cooking techniques, following precise instructions to prepare meals for events ranging from 20 to 150 customers.
- Collaborated closely with the owner of the catering service to organised event coordination. Directed staff management, planned shifts and upheld attention to detail. Led and motivated a team of 10 waitresses and waiters to deliver exceptional service.

#### Junior Administrative - Promostar S.A

##### Feb.2011 - Aug.2016 | Buenos Aires, ARG

- Managed payments for approximately 20 providers, ensuring precise bookkeeping and accounting using Excel, and implemented effective cost management strategies. These tasks were performed within Promostar, a marketing company with over 200 employees.
- Held responsibility for overseeing the maintenance of all financial data and documentation.
